This is Michael D. Garner, and this letter I have written is to inform you that the information and fee inside this envelope is a reply to the notice I have received from the USPTO to amend my claims and pay a fee for the time extension of my application. If there are any other questions regarding this letter or the contents of this envelope please contact me at (256) 858-0621 or contact Marc E. Norman who is the examiner of my application at the USPTO. I have already sent this information and fee out on time before, but the USPTO didn't know what to do with it. Which is why I am sending this letter with the information and fee along with my application number in order to avoid anymore misunderstandings. The application number is 10/714,241. Thany you for your time.

Michael D. Garner
